

AUGERS SET FOR MANUAL DRILLING

The full kit includes five basic types of hand augers. They are suitable for drilling and sampling of different types of soils and can be extended up to 8 meters. Augers have highest durability due to unique in Europe production by blacksmith's.

MADE BY
BLACKSMITH

1. Edelman type auger

diameter: \varnothing 65 - 84 mm
length: 1 m (working part about 0,4 m)
weight: about 2,65 kg

2. Double cutting tube auger

diameter: \varnothing 70 - 84 mm
length: 1 m (working part about 0,5 m)
weight: about 3,1 kg

3. Double - coil spiral auger

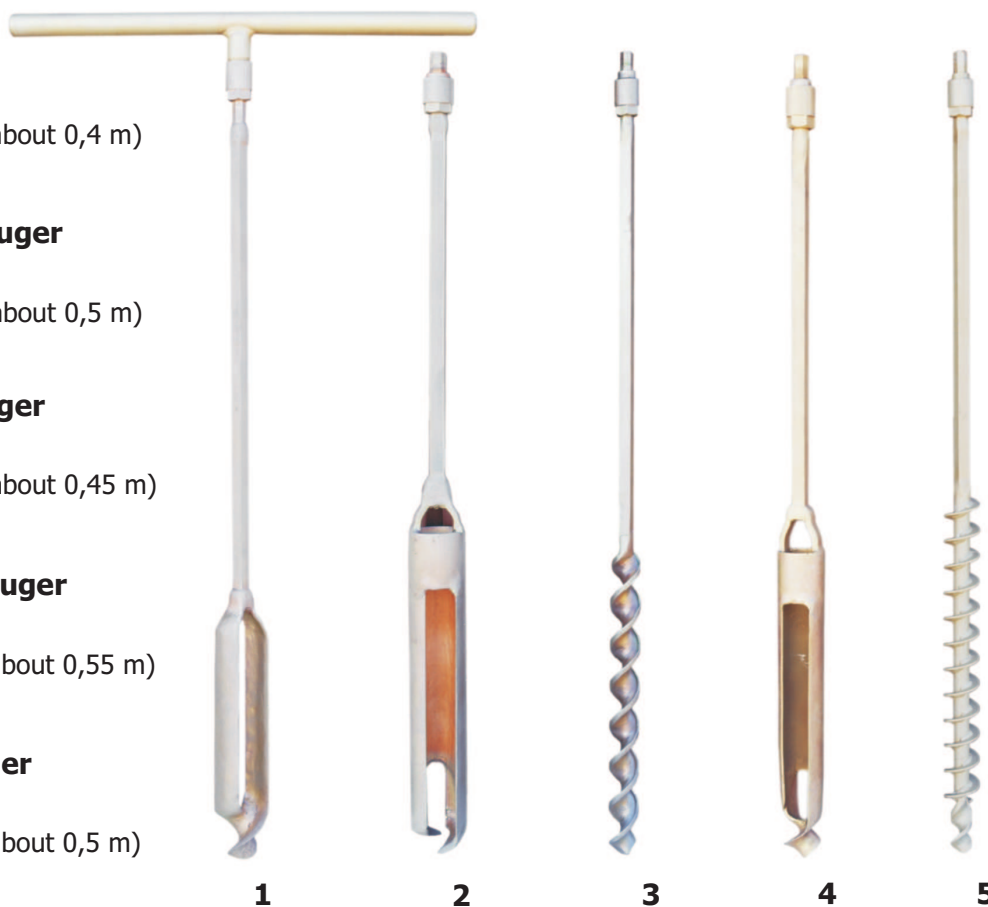

diameter: \varnothing 42 mm
length: 1 m (working part about 0,45 m)
weight: about 2,15 kg

4. Edelman - tube type auger

diameter: \varnothing 65 - 84 mm
length: 1 m (working part about 0,55 m)
weight: about 2,9 kg

5. Single - coil spiral auger

diameter: \varnothing 45 - 64 mm
length: 1 m (working part about 0,5 m)
weight: about 2,7 kg

Working part is connected with the rod of square section 16 mm, ended with nipple 3/4"

Extension rods

square section 16 mm
length: 1 m or 1,5 m
weight: 2,2 - 3,1 kg

12 MONTH
GUARANTEE

Double knob

light or strengthened performance
length: about 0,6 m
weight: 2,2 - 2,8 kg

Upper knob

nipple 3/4"
length: ok. 0,6 m
weight: ok. 1 kg
